

Quotation for Website & Application Development Services

1. Static Website – ₹8,000 to ₹10,000

A static website is ideal for businesses that need a simple online presence with fixed content. It includes basic information like Home, About, Services, and Contact pages.

- Fast loading
- Low maintenance
- Great for portfolio/business showcase

2. Dynamic Website – ₹25,000 to ₹30,000

A dynamic website allows you to manage and update content through an admin panel. Ideal for businesses requiring regular updates or user interactions.

- Admin Dashboard
- Blog, Services, Testimonials, etc.
- Interactive & scalable

3. E-Commerce Website – ₹35,000 to ₹40,000

An e-commerce website enables online selling with product listings, cart, and payment integration. Perfect for retailers and distributors.

- Product Management
- Payment Gateway Integration
- Order Tracking & User Accounts

4. Customized Software – Based on Requirements

We develop custom software solutions tailored to your business processes, whether it's a CRM, ERP, HRMS, or any industry-specific system.

- Built to your exact needs
- Scalable architecture
- Secure & optimized

5. Custom Mobile Applications – Based on Requirements

We also offer custom application development (Android/Web/Hybrid), suited to your business goals.

- Modern UI/UX
- Real-time features
- Deployed to Play Store or internal use

➤ **Complimentary Offer**

- 1 Year Free Domain & Hosting with all plans
- Free basic SEO setup and responsive design
- Post-launch support

We ensure top-notch quality using the latest MERN (MongoDB, Express.js, React.js, Node.js) stack for seamless performance, scalability, and security.

Feel free to connect for a detailed discussion and project timeline.

Warm Regards,
